Joe Stockdale
International Showjumper

"Cortaflex® is one of my favourite Equine America products. For one, it definitely gives the horses extra mobility in their body. This is obviously very important in our field given how fine the margins are nowadays."

John Whitaker MBE
British Equestrian & Olympic Medallist

"The proof is in the pudding. Both Welham and Gammon won the Derby at over 20 years with the help of Cortaflex®, it is exceptional and I've been using it ever since!"

Zara Tindall MBE
British Equestrian & Olympic Silver Medallist

"Xtra Boost Paste is great for our horses' energy levels just before cross country. It helps make sure energy levels are as high as we can get them."

Category	Product	Sizes	Description

As a member of UFAS and BETA-NOPS schemes, Equine America takes Clean Sport extremely seriously and ensures every measure is taken to prevent contamination by harmful substances.

Our products are used by horses and riders across the globe. It is important to us that our customers are reassured by the high level of certification and accreditation we hold to maintain consistency and quality and that every measure is taken to ensure our products do not contain prohibited substances.

We only use approved suppliers and have full traceability at all stages of our state of the art manufacturing processes. In the UK we comply with the regulations administered by the UK Veterinary Medicines Directorate and the Food Standards Agency. Products made in Europe comply with the GMP+ Feed Certification Scheme.
